

Gentle Lax Pak™

A combination of natural laxative ingredients for gilts, sows or boars

Features

- A new product engineered to be palatable with a gentle, natural softening action
- Contains a tested blend of hydrated mineral (for immediate action) & soluble fiber (for longer-term action)
- Designed to moisten and assist in loosening stools when needed
- Palatable and easy to top-dress or add to complete diet
- May be used at farrowing time, or continuously, if needed

Benefits

- An effective laxative, without causing dehydration that can impede normal milk flow
- Reduction/elimination of constipation enables sows to consume more lactation feed
- Softens stools to allow manure to work through slats
- Reduced manure build-up, decreases the exposure of young pigs to coccidiosis and other pathogens

Feeding Guidelines

Mix 10-30 lbs of Gentle Lax Pak™/ ton of complete feed or top-dress 1-3 ounces per head per day. Adjust level to achieve desired stool consistency response.

**Breeding herd feeds and feeding programs
designed to maximize the number of weaned
pigs per sow per lifetime**
